PROFILE

As a child, I was consumed by the enchanting worlds within books, often sneaking under the covers with a flashlight to indulge in late-night reading adventures. Those quiet moments fueled my passion for storytelling and laid the groundwork for my current love – coding. Each page turned was a step towards understanding the magic of crafting new worlds. Now, I'm excited to bring that same commitment to creating exceptional end-products to your team.

SKILLS

FRONT END: HTML5, CSS, JS, React.js, DOM, APIs, Ruby, etc
